## NEWS RELEASE

### **Restart Protocol Amended in High School Boys Lacrosse**

**FOR IMMEDIATE RELEASE**

Contact: Dr. James Weaver

INDIANAPOLIS, IN (August 6, 2019) — Starting next year in high school boys lacrosse, play may be restarted with a defensive player within 5 yards of the player in possession of the ball. In such cases, defensive players must adhere to certain conditions or they may be subject to a delay-of-game technical foul.

The amended restart protocol was one of 10 rules changes recommended by the National Federation of State High School Associations (NFHS) Boys Lacrosse Rules Committee at its July 15-17 meeting in Indianapolis. All rules changes were subsequently approved by the NFHS Board of Directors.

“The committee worked diligently in reviewing all proposals,” said Dr. James Weaver, NFHS director of performing arts and sports and liaison to the NFHS Boys Lacrosse Rules Committee. “Year after year, the game of high school boys lacrosse continues to improve and make positive strides.”

In a change to Rule 4-22-1, officials will no longer wait for defensive players to position themselves more than 5 yards from the player in possession of the ball when restarting play. While both offensive and defensive players are still required to move more than 5 yards away, two exceptions apply to defensive players only. Defensive players within 5 yards of the player in possession

of the ball can avoid a delay-of-game technical foul by allowing the player a direct path to the goal and not defending that player until the player is 5 yards away from the defending player.

“This change allows for rapid restarts to increase pace of play while making the game more engaging,” Weaver said. “Additionally, the change balances technique between offense and defense.”

Under mandatory equipment listed in Rule 1-9-1, shoulder pads and chest protectors used by players must be designed for lacrosse. Additionally, goalkeepers must wear a chest protector designed for lacrosse that meets the National Operating Committee on Standards for Athletic Equipment (NOCSAE) ND200 standard at the time of manufacture beginning January 1, 2021, while shoulder pads for field players must incorporate the NOCSAE ND200 lacrosse standard for chest protection beginning January 1, 2022.

NOCSAE ND200 protection will be available on the market for field players and goalkeepers this fall.

“Health and safety of players is of the utmost importance,” Weaver said. “The NOCSAE ND200 standard for lacrosse will provide valuable protection for all players in the game.”

In a change to Rule 5-5, the penalty for an illegal crosse is no longer a tiered penalty and is now a two-minute, nonreleasable penalty – regardless of the infraction.

Throwing a crosse, referenced in Rules 5-10 and 6-5-2, is now an infraction in all cases. Throwing the crosse at a ball, player or other game personnel is considered unsportsmanlike conduct, which is met with a one- to three-minute non-releasable penalty and in all other cases falls under illegal procedure.

Under the Chief Bench Official’s (CBO) responsibilities in Rule 2-7-2, the CBO is no longer responsible for penalizing a team with too few players on the field. However, delayed substitutions — when a player gains an advantage by delaying entry onto the field — still fall under the CBO’s duties.

The committee eliminated three definitions under “Play of the Ball Definitions” in Rule 4-5 – ball in flight, team possession and completed pass, which were deemed to no longer be needed.

Changes to Rules 6-1-1 and 6-2-1 focus on streamlining changes made to the slow-whistle technique in Rule 7-8-2 over the past two seasons.

Finally, Rule 4-24 clarifies that a time-out for a player with symptoms consistent with a concussion is an official’s time-out, not a team time-out.

A complete listing of the boys lacrosse rules changes will be available on the NFHS website at [www.nfhs.org](http://www.nfhs.org). Click on “Activities & Sports” at the top of the home page and select “Lacrosse-Boys.”

According to the 2017-18 NFHS High School Athletics Participation Survey, there are 113,313 boys participating in lacrosse at 2,957 high schools across the country.

#### **About the National Federation of State High School Associations (NFHS)**

The NFHS, based in Indianapolis, Indiana, is the national leadership organization for high school sports and performing arts activities. Since 1920, the NFHS has led the development of education-based interscholastic sports and performing arts activities that help students succeed in their lives. The NFHS sets direction for the future by building awareness and support, improving the participation experience, establishing consistent standards and rules for competition, and helping those who oversee high school sports and activities. The NFHS writes playing rules for 17 sports for boys and girls at the high school level. Through its 50 member state associations and the District of Columbia, the NFHS reaches more than 19,500 high schools and 12 million participants in high school activity programs, including more than 7.9 million in high school sports. As the recognized national authority on interscholastic activity programs, the NFHS conducts national meetings; sanctions interstate events; offers online publications and services for high school coaches and officials; sponsors professional organizations for high school coaches, officials, speech and debate coaches, and music adjudicators; serves as the national source for interscholastic coach training; and serves as a national information resource of interscholastic athletics and activities. For more information, visit the NFHS website at [www.nfhs.org](http://www.nfhs.org).
